

# Community Information on Recycled Water

You can help keep the system running at its optimum by following some simple guidelines.

## **Please do**

- Contact the NEV Water if you experience any problems with your sewage system.
- Seek information from NEV Water if you do not understand the sewage treatment and disposal. Their contact information is listed below.

## **Please don't**

- Don't drink treated recycled water – it is non-potable.
- Don't attempt to alter or repair any of the plumbing
- Make connections to the sewage network without prior written approval from NEV Water

Don't put any of these materials down the drain:

- Bulk detergents
- Fertilisers
- Chemicals
- Pharmaceuticals
- Pet care products
- Silicon or silicon based products
- Bleach
- Paint or paint thinners
- Turps
- High-foaming degreasers
- Windex
- Draino or caustic soda

## **Important contact information**

For all life-threatening emergencies dial 000 for Ambulance, Fire Brigade or Police.

Incidents and emergencies –

For urgent repairs, incidents and emergencies, contact NEV Water in the first instance.
